

Controlled Substances Policy at SCANA Pharmacy

Controlled substances are drugs that are approved for use in medical treatment, but have a high potential for addiction, dependence or abuse.

SCANA will not deliver controlled substances through inter-company mail because of the abuse potential.

They are categorized by SCHEDULE. The lower the schedule number, the higher is the possibility of abuse. Drugs listed below are most commonly prescribed examples.

Schedule II	Schedule III	Schedule IV	Schedule V
Written prescription ONLY	Verbal order accepted		
31-day supply ONLY	90-day supply available		
Prescription expires 90-days after date written	Prescription expires 6-months after date written		
Adderall (amphetamine salts) Adderall XR (dextroamphetamine/amphetamine ER) Concerta (methylphenidate ER, methylin ER) Daytrana Demerol (meperidine) Desoxyn (methamphetamine) Dexedrine (dextroamphetamine) Dilaudid (hydromorphone) Duragesic (fentanyl) Embeda Endocet (oxycodone/acetaminophen) Focalin (dexmethylphenidate) Focalin XR (dexmethylphenidate ER) Hycodan (hydromet) Kadian (morphine ER) Lorcet (hydrocodone/acetaminophen) Lortab (hydrocodone/acetaminophen) Norco (hydrocodone/acetaminophen) Metadate CD (methylphenidate CD) Morphine Sulfate IR MS Contin (morphine sulfate ER) Nucynta Opana (oxymorphone ER) Oxycontin (oxycodone) Oxy IR (oxycodone IR) Percocet (oxycodone/acetaminophen) Percodan (oxycodone/aspirin) Ritalin (methylphenidate, methylin) Ritalin LA Ritalin SR (methylphenidate ER) Roxanol (morphine sulfate liquid) Tussionex (hydrocodone/homotropine) Tussionex (hydrocodone/chlorpheniramine) Tylox (oxycodone/acetaminophen) Vicodin (hydrocodone/acetaminophen) Vicoprofen (hydrocodone/ibuprofen) Vyvanse Xodol (hydrocodone/acetaminophen)	Androderm Androgel Axiron Bontril (phendimetrazine) Didrex (benzphetamine) Estratest (covaryx) Estratest H.S. (covaryx h.s.) Fiorinal (butalbital/aspirin/caffeine) Fiorinal #3 (butalbital/aspirin/codeine) Fortesta Soma (carisoprodol) Soma Compound (carisoprodol/codeine) Suboxone (buprenorphine) Testim Testosterone Tylenol #3 (acetaminophen/codeine)	Adipex (phentermine) Ambien (zolpidem) Ambien CR (zolpidem CR) Ativan (lorazepam) Dalmane (flurazepam) Diazepam (valium) Diethylpropion Dalmane (flurazepam) Fastin Halcion (triazolam) Klonopin (clonazepam) Librium (chlordiazepoxide) Limbitrol (amitriptyline/chlordiazepoxide) Limbrax (chlordiazepoxide/clidinium) Lunesta (eszopiclone) Meprobamate Niravam (alprazolam) Nuvigil Phenobarbital Prosom (estazolam) Provigil (modafinil) Restoril (temazepam) Serax (oxazepam) Sonata (zaleplon) Talwin NX (pentazocine/naloxone) Tranxene (clorazepate) Ultram (tramadol) Xanax (alprazolam) Xanax XR (alprazolam XR) Zolpimist	Cheratussin AC (acetaminophen/codeine) Lomotil (diphenoxylate/atropine) Lyrica Vimpat
