

**SCANA CORPORATION 401(K) RETIREMENT SAVINGS PLAN**  
**Disclosure of Plan-Related Information**

This summary is intended for the sole purpose of complying with the disclosure requirements of Department of Labor regulations under §2550.404a-5. Please refer to your plan's disclosure materials prior to making investment decisions.

**1. Explanation of circumstances under which participants & beneficiaries may give investment instructions.**

The Plan permits participants to direct the investment of all of their accounts.

**Please note the website will open for participants the week of May 4, 2020.**

After you have enrolled in the Plan or have a beneficiary account established, you may direct your investments by accessing the Plan's website at <https://DominionEnergy401k.voya.com>. You will need your Login and Password to access your account. You may also direct your investments by calling the Dominion Energy Savings Plan Line at 1-888-366-4015.

**2. Identification of any designated investment managers.**

The Plan has made available to you the Professional Account Manager program through Voya Retirement Advisors, LLC. The Professional Account Manager program is an optional service that provides guidance, investment strategy, and on-going account management for a monthly fee that will be deducted directly from your account. There is no charge or obligation for an initial consultation, and the service can be cancelled at any time.

**3. A description of or reference to plan provisions relating to the exercise of voting, tender and similar rights appurtenant to an investment in a designated investment alternative as well as any restrictions on such rights.**

As the plan allows for pass through voting for your holdings in the employer stock fund, you are entitled to vote on shares held by the trustee of the plan. Prior to each annual or special shareholders' meeting of the company, each participant who has a balance in the employer stock fund will be furnished with a copy of the proxy solicitation material sent generally to shareholders, together with forms requesting confidential instructions on how the shares allocated to each participant's account are to be voted. The company shall cooperate with the plan's trustee to ensure that participants receive the information in a timely manner. The materials furnished to participants shall include a notice from the trustee that any allocated shares for which timely instructions are not received by the plan's trustee will be voted by the plan's trustee as directed by the company. If you have any questions regarding the voting process, please contact your employer or your employer's benefit plans manager.

**4. An explanation of any fees for general plan administrative services (e.g., legal, accounting, recordkeeping) which may be charged or deducted from individual accounts. Must also include the basis on which such charges will be allocated (pro-rata or per capita).**

Certain fees may be deducted from your Plan account balance. Such fees may be used to pay for services required to administer the plan (e.g. recordkeeping, accounting and legal services) and will be allocated to Plan participants on a per capita basis. You may review these fee deductions on your account statement or by logging into the Plan's website.

These expenses may be paid, in whole or in part, from revenue sharing payments that the plan receives from the plan investment options. If revenue sharing payments are received, then only those expenses not offset by any revenue sharing payments will be deducted from your account.

The Company pays for these plan expenses.

The method of payment for the plan's administrative fees is subject to change at any time.

**5. An explanation of any fees and expenses that may be charged against the individual account of a participant/beneficiary on an individual rather than on a plan-wide basis.**

Separate fees may be deducted from your account if you elect certain transactions, or elect certain service programs. You will receive a confirmation statement for these transaction fees. You may also access your account information by logging onto the Plan's website or by reviewing your most recent account statement.

**Document Summary**

This document has 2 parts. Part I consists of performance information for plan investment options. This part shows you how well the investments have performed in the past. Part II shows you the fees and expenses you will pay if you invest in an option.

**Part I. Performance Information**

**Table 1** focuses on the performance of investment options that do not have a fixed or stated rate of return. Table 1 shows how these options have performed over time and allows you to compare them with an appropriate benchmark for the same time periods. Past performance does not guarantee how the investment option will perform in the future. Your investment in these options could lose money. Information about an option's principal risks is available on the Web site[s].

## Part II. Fee and Expense Information

**Table 2** shows fee and expense information for the investment options listed in Table 1. Table 2 shows the Total Gross Annual Operating Expenses of the options in Table 1. Annual Operating Expenses are expenses that reduce the rate of return of the investment option. Table 2 also shows Shareholder-type Fees. These fees are in addition to Annual Operating Expenses. To find additional information about your investments, please see applicable fund information in the appropriate documents made available to you (e.g. prospectus, Fund Fact Sheet, fund information section on the plan's web site, etc.).

(1) To help achieve long-term retirement security, you should give careful consideration to the benefits of a well-balanced and diversified investment portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing your overall risk of losing money. This is because market or other economic conditions that cause one category of assets, or one particular security, to perform very well often cause another asset category, or another particular security to perform poorly. If you invest more than 20% of your retirement savings in any one company or industry, your savings may not be properly diversified. Although diversification is not a guarantee against loss, it is an effective strategy to help you manage investment risk.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's Web site for help with understanding your retirement plan fees and expenses at <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/resource-center/publications/understanding-your-retirement-plan-fees>. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.
